

157

A geometric diagram showing a circle with an inscribed pentagon. The vertices of the pentagon are labeled with Greek letters: Α (top), Β (top-left), Γ (bottom-left), Δ (bottom-right), and Ε (top-right). A vertical line passes through the center of the circle, with points Ζ (top) and Η (bottom) marked on it. The line ΖΗ is perpendicular to the base of the pentagon, ΓΔ. The diagram is drawn in brown ink on aged, yellowed paper.
